Outpatient Treatment Center

Designed and created around the special needs of patients, the newly renovated and expanded Outpatient Treatment Center features a beautiful, spacious, healing environment. We provide our patients with qualified infusion care in an outpatient setting. Our professional team is dedicated to providing the most personalized and appropriate plan of care for each individual patient. Treatments administered in the OTC include standard chemotherapy and biotherapy regimens while also providing current clinical trial therapies. offers convenience for patients who require frequent infusions of medications, including those with central lines. We work with a diverse population of patients, such as:

- **Cancer patients undergoing chemotherapy**
- **Individuals taking medications for pain management**
- **Patients with blood disorders such as hemophilia**
- **Patients requiring intravenous antibiotics**
- **Other patients who require intravenous treatments, but are not hospitalized**

Our Services

The Outpatient Infusion Center specializes in intravenous (IV) treatments. Services and treatments provided here include:

- Biological response modifiers
- Central line catheter care
- Chemotherapy
- Hydration therapy
- Immunomodulators
- Intravenous therapies (many types)
- IV antibiotic therapy
- IV anti-emetic care
- IV immune globulin
- Intramuscular injections
- Monoclonal antibodies
- Pain management
- Subcutaneous injections
- Therapeutic phlebotomy
- Transfusions of blood products

Supplemental services support the clinical care. To create an optimal care experience, our team also provides:

- Assessment and evaluations
- Educational and instructional materials
- Procuring specimens for lab testing
- Providing updates to the primary physician
- Participating in ongoing utilization reviews with the primary physician to promote the best treatment outcomes
- Documentation in the form of treatment and utilization reports, progress notes, nursing assessments and discharge summaries

Empowering Patients

We are committed to creating the best care experience for our patients. In addition to facilitating IV treatments, we teach patients how to care for themselves during therapy so they can be active participants in their own healthcare.

The Team

Our staff of registered nurse (RN) clinicians have years of experience and specialize in intravenous treatments. All of the RNs have worked in a hospital inpatient setting and have advanced certification in oncology nursing.

Location and Hours

The Outpatient Treatment Center is located at the Straub King Street location at 888 South King Street, in the Palma Building first floor level. The Center is open Monday-Friday, 8:00 a.m.-5:00 p.m.
