

Gynecologic Cancer Support Group

healthier

The Gynecologic Cancer Support Group is offered by the Cancer Centers of Hawai'i Pacific Health for patients who are currently in treatment for gynecologic cancer – ovarian, uterine, vaginal, vulvar, cervical – and gynecologic cancer survivors.

The support group provides a safe space for patients to learn coping methods, improve well-being and build connections with others who have had similar experiences.

Support group meetings are free and facilitated by health care professionals who are members of the cancer care teams at Hawai'i Pacific Health.
